

A Christmas message *from the Town Mayor*

The vaccine gives us hope of a return to our normal daily lives before too long. Although the year has been very tough, the community effort in helping those in need has been amazing, and will provide a great foundation for the years ahead.

I want to pass on my heartfelt thanks to all the people and organisations, many voluntary, which have assisted in the resilience of our community in any way.

The year has also brought huge challenges to our High Street businesses, and generated creative ways to meet those challenges, which will stand them in good stead post-Covid.

Video-conferencing seems to be here to stay and has helped many local organisations and clubs, including the Town Council, to stay as close to "business as usual" as possible.

As Christmas is almost here I would like on behalf of myself, my consort Mr. David Curteis and the Town Council to wish everyone a safe and caring Christmas and New Year.

Cllr. Jean Curteis
